

Department of Anesthesia

2019 Weber Memorial Lecturer

Frailty for the Perioperative Physician: Identification, Optimization and Future Directions

Dr. Daniel McIsaac

Assistant Professor of Anesthesiology and Pain Management,
University of Ottawa

Thursday April 18, 2019 at 5 PM

Sunnybrook Health Sciences Centre
McLaughlin Lecture Theatre (Room EG-61)
2075 Bayview Ave, Toronto, ON M4N 3M5

Dr. Daniel McIsaac is an Anesthesiologist at the Ottawa Hospital. He completed his medical training at the University of Dalhousie, and completed his Anesthesia training at the University of Ottawa in 2014. Dr. McIsaac is highly involved in multi-center trials, and was a recent recipient of the CIHR Grant for the PREPARE Trials. His trials look at the prehabilitation and its effect on post-op outcomes in the elderly. He also serves as the Junior Research Chair in Perioperative Health Systems and Outcomes at the University of Ottawa.
