

Anesthesia UNIVERSITY OF TORONTO

Clinician Investigator – Full time Academic Position Description: Dr. _____

This academic position description is intended to outline important elements that will be useful in conducting annual reviews and the three-year probationary review; the individual components are not all mandatory but assist in forming a composite picture of a faculty member’s progress.

General Description: The Clinician-Investigator will have major clinical and research responsibilities, and will facilitate the research, teaching and education by others. Teaching may be done concurrently with clinical care and/or in organized educational programs.

Time Distribution: The faculty member is engaged in academic activities for 80% or more of their professional time. The faculty member also contributes to the provision of clinical service which is essential to the academic mission. The time spent in academic-related activities will be distributed as follows:

	Requirements	Time Distribution	Description / Comments
Clinical Activity and related teaching	<p>Academic contributions are in the context of clinical care in most circumstances, and will vary according to the location and details of practice.</p> <p>Undergraduate student teaching (e.g. medical pre-clerkship and/or clerkship) typically at least 5 evaluated days/year of student contact.</p> <p>Postgraduate teaching of residents and fellows during the course of clinical anesthesia practice and pain management, ICU, and anesthesia clinics etc. typically at least 12 evaluated days/year of student contact.</p>	40-50%	
Formal Teaching (outside of clinical care)	Participation in formal courses and CME activities	5-20%	
Research Activity	Your research interests will be led by you and/or will facilitate other members of the department as a collaborator or facilitator. You will publish at 3-4 peer-reviewed papers (mostly as a collaborative author)	30-50%	

Clinician-Investigator

For each annual review, the Clinician-Investigator must have an up-to-date CV, Creative Professional Activity (CPA) dossier and teaching dossier in the University of Toronto format.
The hospital anesthesiologist-in-chief should submit confirmation of research, teaching and administrative activity.

	Yr 1	Yr 2	Yr 3
Essential Research Activities
