Anesthesia Faculty Clinical Supervision and Teaching

June 2020

Thank you for providing your important feedback and comments to our faculty. The ANONYMOUS information & comments you provide on an individual faculty's clinical supervision and teaching are collected centrally at the Department of Anesthesia. Cumulative data will periodically be reviewed by the Program Director and Department Chair. Cumulative data will also be reported to the respective faculty and their Departmental Chief as a combined report, with many anonymous residents' assessment and feedback, and after an appropriate time delay (which will be at least 6 months). This report will provide faculty with information on their strengths and areas for development and improvement. As faculty will receive your comments exactly as written, please be professional in your remarks and statements.
