

Role of the Monitor/Supervisor

COVID-19 Protected Code Blue

DO

Ensure all members entering room use Droplet/Contact Precautions **+N95** respirator

Ensure minimal people in the room. Have other staff dressed and on Stand-by outside the room

First responder must leave room to doff/re-don Droplet/Contact +N95 if needs to stay in room to chart/supervise

KEEP DOOR CLOSED!

Delegate staff to get Rapid Sequence Medication for intubation in the fridge marked "Code Blue"

Ensure staff doff PPE inside room (or ante-room where available)

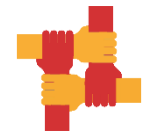

AVOID

Do not leave the area!
Delegate other staff to do runs/tasks

Do not permit non-essential staff to enter room

Patient transport – do not wear "dirty" PPE for transport. Ensure all team members transporting patient are using clean PPE

Do not wear used PPE outside of room (except N95 which may now be used as the extended wear mask)
