

Goals:

1. Ensure proper health care team protection	2. Minimize Aerosol Exposure - RSI (no BMV during apnea) - Tolerate desaturation	3. Minimize Waste - Appropriate rationing
---	---	---

Code Airway Called :

- 1) **DNR STATUS? CONSENT? ICU ACCEPTING?**
- 2) **TALK TO MRP? (Allergies? How Urgent? PMHx?)**

Pre-intubation Checklist

INTRODUCTION AND ROLES	
REVIEW PLAN A, B, C	
<i>Perform the Following TWICE (1 @ Team Room; 2 @ Intubation)</i>	
PPE CHECK	
Self-inflating Ambu Bag and Mask?	
Viral/Bacterial Filter?	
PEEP valve?	
ETCO2 detector?	
ETT Clamp?	
Anchor fast or ETT tape/ties?	
In-line Suction + suction catheter?	
ETT loaded on stylet? 20 cc syringe ready?	
GlideScope functioning? Handle ready?	
Direct laryngoscope working and ready? bougie?	
LMA ready? LMA intubating kit available?	
Antiseptic, scalpel and 6.0ETT available?	
Induction dose of ketamine/propofol ready?	
Paralytic dose of rocuronium ready?	
Vasopressor ready?	
Drape available? Bag for Waste?	
PERFORM AT LOCATION	
Assessment of difficult BMV/intubation done?	
NIBP cycling q2mins? ECG attached? SpO2 working?	
Hemodynamics optimized? Vasopressor needed?	
Patient positioning?	
Functioning IV?	
Suction available?	

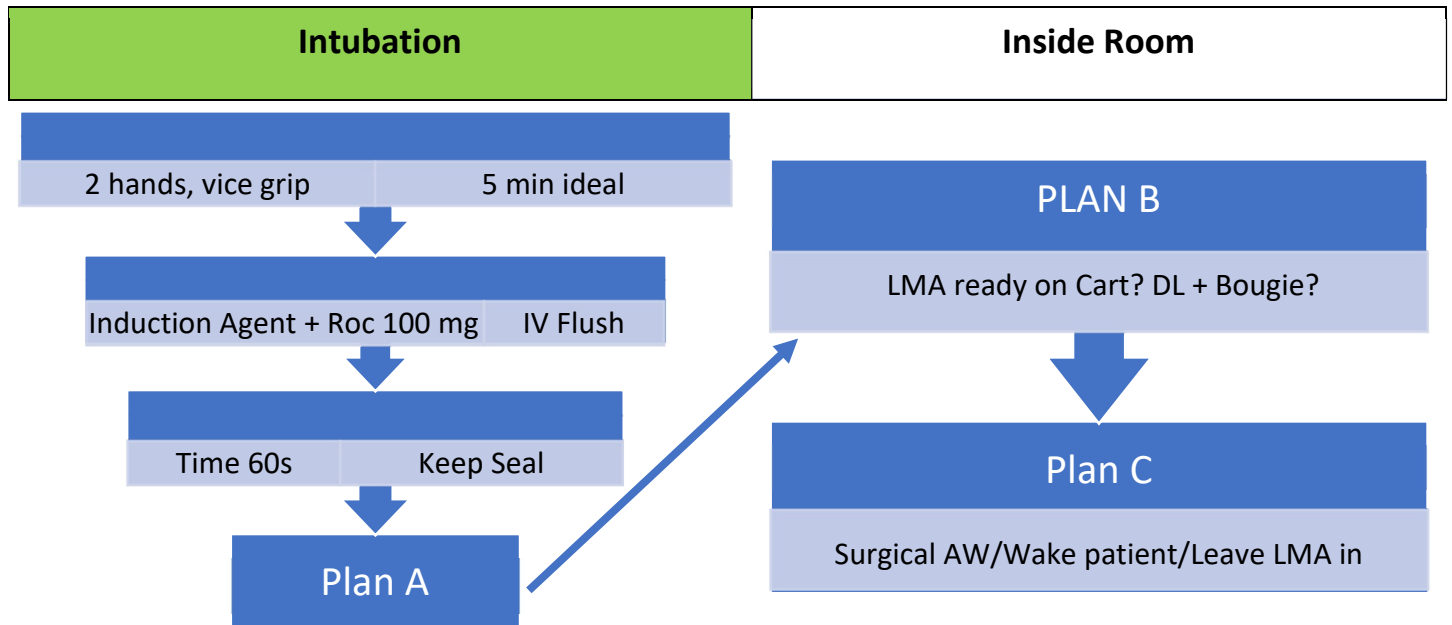

PLAN A: Bring into Room
3 attempts b/w 2 MDs

PLAN B: Have prepared and ready
In bag on airway cart

LMA rescue

PLAN C: Assemble from cart.
Have ready

**TIME OUT – REVIEW PLAN A, B, and C
FINAL PPE CHECK**

Post-Intubation	Inside Room
Airway Captured - Inflate cuff - Attach to Ambu-bag, Capnography, HME - Confirm EtCO ₂ - Secure ETT via Anchorfast - Clamp ETT	Connect to Ventilator - Unclamp ETT Connect to IV infusion
	Prepare to Exit - Ensure patient stability - Additional necessary procedures performed - Discard disposables

STOP	In Anteroom
Avoid contamination - Follow safety officer directions - Doff one-by-one	Exit Anteroom Hand-Hygiene with soap + water

End

Wash Exposed Areas / Hot Debrief – Critical steps, Learning Points / Restock and Clean Kit

Use Red Anesthetic Record to Chart Intubation details.

Equipment

INTUBATION KIT		
Intubation Kit: Grab and Go	Intubation Kit: Extra	Drug Kit (On airway cart, locked)
